The Town of Burnsville water system which operates under DEQ permit # NC0100010 is experiencing drought conditions. The North Carolina Department of Water Resource has listed Burnsville's water system as a Tier 2, Moderate Drought category. All consumers are urged to conserve water at this point. The Town will remain under a voluntary conservation notice until conditions change. All outside the system water sales have been suspended at this time. Any changes to the existing conditions will be listed in the newspaper and on the Town of Burnsville's website.
